Bonnot Tech Rider

3 x Pioneer CDJ 30000 (CDJ linked - Two on the right and one on the left of the mixer, Where possible a 4th CDJ) Please make sure the CDJ software has been updated and there is a link cable connecting the CDJs or WiFi link has been tested and is in full working order. Decks and mixer must be in good condition and regularly serviced. **Link cables required.**

1 x Professional club standard mixer. Pioneer DJM900 or equivalent (recent models only).

2 x Club standard monitor speakers either side of DJ. (If there is only one monitor please place it on the left).

The table on which the decks stand must be at least 95 cm tall, alternately flight cases or similar should be placed on the table for the decks to stand on.

If performing with an MC, the MC will require a standard SM58 (or equivalent) mic set up with a separate mic monitor.
Technical Support:
- A qualified system technician or engineer must be present during sound check and throughout the performance, with the ability to make real-time adjustments if required.
